

The Experiential Learning Center is your gateway to highly motivated interns and co-operative education students. We serve as the University's central point of contact for both students and employers, and are committed to making each internship and co-op a valuable experience for all parties.

Our services to you include -

- Providing assistance in designing internships and co-ops that are high-quality, marketable, and appropriate.
- Advertising and promoting your opportunities through InternLink and directly to faculty, students, and student organizations.
- Troubleshooting any problems or issues that may arise with an internship or co-op placement.
- Conducting periodic site visits to better understand your organization.
- Retaining position descriptions in our database free of charge without quantity limits.
- Providing intern evaluations and tools to track students' work hours.

If you've never hosted an intern or co-op student...

...and would like assistance or advice about developing internship or co-op opportunities, please contact our [staff](#).

If you already host interns or co-op students and would like to post a position...

...you can post internships or co-ops on [Internlink](#).
